

People Accelerators

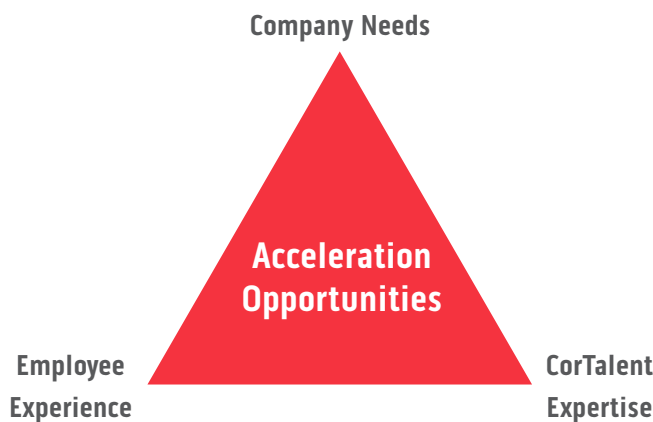

Build more capable leaders, faster.

WE HELP YOU GET THE
PEOPLE PART RIGHT.

You have created your future accountability chart and have determined which people are going to help you get to where you want to go. People Accelerators help CEOs to leverage their talent to grow their business. CorTalent's People Accelerator uses validated assessments, personal interviews, and external benchmarks to determine the strengths and skill gaps within key talent.

Development That Adds Value

Accelerators use multiple inputs to determine development opportunities that adds value to the company and supports employee career goals.

How Accelerators Work

1. Plan

Identify company needs and employee development opportunities.

2. Assess

Accurately identify strengths, development opportunities, and potential derailers for each participant.

3. Act

Detailed report outlining key assessment insights, skill and experience gaps, and recommended development actions.
